

Hi ever wonder why there aren't very many net Golf events.

It seems like it only takes a few bad apples to ruin what usually is a good time for everyone.

I am the Group Play Ambassador at Bing Maloney golf course in Sacramento, California

I am planning to have an "Associate Club Challenge" at Bing Maloney on July the 29th 2023.

This 18 hole event will be an 8:00 am shotgun.

If you are no longer associated with associated with this golf club, please pass this email on to someone who is or to the proper person in your club.

What will make this different is it will be a team net event where 1 to 2 foursomes from each associate club will compete for "Associate Club Foursome of the Year". If we get a suitable number of responses, there will also be a women's division.

Each team will be made up of 4 players.

A level=6.9 and below

B level=7 to 13.9

C level=14 to 20.9

D level=21+

If we have a women's division the levels will be as follows.

A level=9.9 and below

B level=10 to 19.9

C level=20 to 29.9

D level=30+

There will be individual contests within each level. The best three net scores on each hole will be added to determine the teams overall score.

If you don't have an A level player your lowest B level player will play at the A level highest handicap listed on the cut-off.
